GLASS PLANT NOW SEEKING COME-BACK FROM FILM FOLK

Second Attachment Served on Educational Motion Picture Exchange on Ground That It Didn't Educate 'Em Enough.

"I'll bet this guy is another sheriff or something," ventured Archie Burke, of the Academy staff, yesterday, as a serious clouded person wandered into the lobby of the Theatre and looked about him as if to ascertain that day's location of the box office. "They got a regular attachment look about 'em, and I can spot 'em nearly every time now."

"Is Mr. Neal in?" inquired the golden one. "I got a paper for him."

"Yes, sir, you'll find him right up."

Granted Insurance After Lung Trouble

There are so many cases of Consumption reported where the details show the disease started with a cold or a cough, that it is really surprising that people are not more anxious to immediately stop these apparently minor troubles. Our advice is "Stop the cough or cold, if possible, without delay." Otherwise more serious troubles are likely to follow. If the medicine you are now taking does not bring relief, try Eckman's Alternative, as this man did.

"Gentlemen: I am giving you below a brief history of my case, which I trust you will use for the benefit of those suffering from any similar troubles.

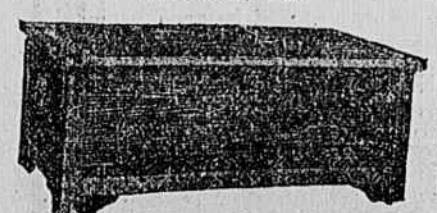

"About a year and a half ago I noticed that my health was rapidly failing, until at the end of six months my weight had fallen to 125 pounds. I was troubled with night sweats, a severe cough, and was very weak, having in fact absolutely no ambition whatever. About this time I consulted a physician, who told me my lungs were affected. Not satisfied with another doctor, who after examining me said that I was in the first stages of consumption. At this point I started to take Eckman's Alternative. The night sweats stopped almost immediately, my cough became looser and gradually disappeared. My weight is now 142 pounds and my physician has pronounced me perfectly sound—which, together with the fact that I have been accepted by two different insurance companies for insurance, makes me sure of my entire recovery by Eckman's Alternative. I should be very glad to communicate with any one who would be interested in my case."

W. E. GEE,
(Sworn Affidavit)

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by all Minor Drug Companies and other leading druggists. Ask for booklet telling of recovery, and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence—Advertisement.

PROPOSAL RESULTS IN CLASH

JOHN BARRETT

CLASH IS CAUSE OF FRESH SENSATION

Barrett and State Department at Odds Over Mexican Situation.

AN ANONYMOUS LETTER

Barrett Makes Public Warning He Has Received Against Certain People.

Washington, February 15.—The clash between John Barrett, of the Pan-American Union, and the State Department over Barrett's proposal for a mediation commission to bring about peace in Mexico, is scarcely less a sensation in official circles here than the Mexican embargo itself. The two affairs divided attention to-day.

The State Department's memorandum last night characterizing Director Barrett's proposal as "mischievous activity, sentimentality and amateur politics" dropped into official circles like a bomb. Coupled with the protest against the intervention and permanent occupation of Mexico by United States troops, and consequently angry with me for presenting a perfectly feasible plan for immediate cessation of hostilities by international mediation, I am seized upon me and my simple, informal and personal suggestion as instruments for force intervention, and have worked up sentiment in the American colony to this end.

"In view of the severity of the complaint of the American colony and the attitude of the State Department, I am forced in self-defense to make public a fact that I would infinitely prefer never to mention were I not the subject of such criticism.

"Late last night, and before I had been informed of the report from Mexico City, I received an anonymous letter. As best I can quote and recall, it was as follows:

"As a friend of yourself and to our Southern republics, I want to warn you. You are in danger of attack from two opposite sources on account of the statement you have given out in regard to the settlement of the Mexican situation. One of these is a certain influence that wants intervention and military occupation and is bitter against the President and State Department for their holding out against it. The other is a certain influence that wants intervention and military occupation and is bitter against the President and State Department for their holding out against it. The other influence is a man in a great department of the American colony, who cordially dislikes you and everything South American. He is plainly jealous of your work for Pan-American good feeling and trade and for the growth of the Latin American Union. Look out for him, as he may endeavor to do you and your cause harm."

I cannot believe that this anonymous statement is worthy of actual credence. I have the most profound respect and regard for the head of the department to which this letter may have referred, and I do not believe at a moment that it refers to him. It must refer to some subordinate, but who he is I cannot imagine.

"With these observations, unless I am further and unjustly attacked, I shall have nothing more whatever to say on the Mexican situation, left it be misconstrued and do harm."

Director Barrett to-day gave out a statement defending his mediation

proposal. He said he honestly believed that his action would strengthen the attitude of the administration against intervention.

"To brand as amateur policies the suggestion of mediation, a great and accepted, broad and practical agency of international friendship, and to call as mischievous activity and sentimentality the application of international co-operation to stop immediately actual fighting and protect lives, seems to be the result of misunderstanding of what I actually had in mind," the director said.

"What I really and greatly fear and deplore is that some person or persons, either in the United States or in Mexico, or in both places, are working together, anxious to bring about forcible intervention and permanent occupation of Mexico by United States troops, and consequently angry with me for presenting a perfectly feasible plan for immediate cessation of hostilities by international mediation, I am seized upon me and my simple, informal and personal suggestion as instruments for force intervention, and have worked up sentiment in the American colony to this end."

PANIC AVERTED

Commotion Caused When Film Caught Fire in Motion Picture Theatre.

A panic was narrowly averted and considerable commotion occasioned yesterday afternoon about 3:40 o'clock, when a reel of pictures caught fire in the operating room at the Superior Theatre, Sixth Street, between Broad and Grace. Some boy in the large audience yelled "Fire!" and there was a general movement towards the doors, but when Manager W. F. Harris announced there was no fire and hastily put a second machine in motion and threw a picture on the screen, calm was restored and the performance resumed.

Some one on the outside turned in an alarm and brought several engine companies, but there was no need for the services of the fire apparatus. It was not even necessary for Mr. Harris to use chemicals, which are kept in the operating room.

The fire was caused by an imperfect patch in the film, which caught from the intense heat of the current used to operate the machine. The only damage was the destruction of the film.

Alleged Reckless Driver
